REVA TEAM

Our mandatory training regimen means every patient we transport receives top-notch care with the latest medical techniques and equipment available including neonatal, pediatric, and organ procurement missions.

REVA SAFETY

Our medical flight crews receive ongoing education including periodic human patient simulator (HPS) training and Advanced Life Support (ALS) skills they use in flight. We are dedicated to having the most qualified and medically-ready aeromedical transport team in the industry.

REVA FLEET

Medically equipped aircraft custom configured to transport both emergency and non-emergency patients. Every aircraft is configured and staffed to resemble a self-contained critical care unit.
